

MantaRay Bay No 1 Barbados

Manta Ray Bay is just 5 very luxurious beachfront apartments perched on a bluff above a secluded beach with uninterrupted views out to the Caribbean Sea on the west coast of Barbados. Set amidst tropical gardens with water features it's a setting to die for.

Apartment 1 is a 4,150 square foot, 4 bedroom duplex on the ground floor with its own additional plunge pool and finished to the highest specifications with travertine marble floors, coral mouldings, granite counter tops, and all stainless steel kitchen appliances throughout the fully equipped Kitchen.

The furnishings are tastefully designed to compliment Caribbean living but with modern luxuries such as flat screen televisions and DVDs in 3 of the bedrooms, wireless internet, satellite TV, music system and air conditioning throughout.

There are 2 large bedrooms with en-suite bathrooms located on the first floor and 2 on the ground floor, which are connected by a spiral internal stairway. Large wrap around balconies and patios on both floors provide wonderful areas to relax. The apartment comes with its own landscaped outside plunge pool located off the ground floor patio but there is also a larger communal pool located a few yards away for the more energetic guest.

From the communal pool is the Manta Ray guests' entrance to steps leading down to the beach and a good swimming area.
