

Landmark House - Barbados

Landmark House is set within spacious private grounds amongst tropical gardens with a pathway leading directly to the white sandy beach.

To compliment the beautiful coral-stone architecture, its furnishings are of the finest quality, and its open plan interior design brings in the pleasant sea breeze, distributed by colonial-style overhead fans.

From the living area, as you sit comfortably on the sofas, the sea is visible through the manicured foliage and the villa is located at the northern end of the exclusive Sandy Lane Beach, which is popular for its excellent swimming and view of the bay.

There is a separate dining pagoda in the garden, a beautiful spot to enjoy a special meal prepared for you by the cook, and followed by a night-cap of the Bajan rum served by the butler who has been with the house for many years.

There are four luxury air-conditioned suites, three on the ground floor level and one on the first floor, each with private bathroom and views of the bay. Continuing with the theme of bringing the outdoors in, some of the bedrooms have an indoor/outdoor shower.

If your party requires extra bedroom space, there is the option to rent Landmark Cottage, which is adjacent to Landmark House and has a further two double en-suite bedrooms.
