

Nelson Gay - Barbados

Nelson Gay is an elegant, 6 bedroom beachfront villa, unpretentiously decorated and represents a one of the fabulous designs by Oliver Messell.

The interior rooms are mostly decorated in white with some green to blend with the lush tropical surroundings and there are also many antiques and works of art on display.

The spacious living room is a central point, with 14ft high ceilings opening up onto an 80ft terrace overlooking the pool, garden and sea. There is an incredible swimming pool (50ft x 12ft x 4.5ft deep) which is tiled in green mosaic and located in the centre of the garden. At the end of the garden is a half mile of pristine, sandy beach and a reef to one side, ideal for snorkeling, plus there is a large area immediately in front of the villa, roped off with buoys for safe swimming.

At night the garden takes on another identity with the new spectacular garden lighting. Nelson Gay has various seating arrangements within the gardens, including a garden gazebo by the beach, plus a beautiful

candlelit dining room to seat 12, with French antique chairs and a large Messell mirror, ideal for evening meals.

The villa is child friendly for all ages and is equipped with a cot for babies up to 9 months, a high chair, children's crockery and cutlery, plus buckets and spades for fun on the beach.

There are 6 bedrooms - all are individually air-conditioned, with remote temperature control and there are also ceiling fans. The bed linens are quality cottons sheets with soft hypoallergenic pillows. Two sets of bedrooms are connected, ideal for close supervision of smaller children.

The study/media room is equipped with reclining chairs a Sony 43" TV, DVD, surround sound, and VCR, plus the 4 bedrooms with TV are connected directly to satellite. A music system with multiple surround-sound speakers features in the living room and terrace, and there is a huge library of CD's and DVD's to choose from.
